FourStar® Bti-Controlled Release Granules – Backed By Central Life Sciences

Central Life Sciences has gone granular to optimize the performance of our FourStar® Bti CRG. The sand-based larvicide has a dual-action controlled release to remain powerful through wet and dry periods. Effective in salt water habitats and dense enough to penetrate the thickest canopy, FourStar® Bti CRG features:

Bti CRG

- A heavy, high-density spherical sand carrier
- 10% Bti active ingredient
- Residual for up to 40 days and 4 floodings
- Application to pre-flood areas
- Effectiveness in a variety of aquatic habitats
- High bulk density for more coverage per application
- Approval for ground and aerial application
