You Trust, Now Available in a Size Perfect for  
Residential and Backyard Treatments

**Altosid® Pro-G Insect Growth Regulator uses (S)-methoprene to offer extended residual control that prevents the emergence of adult mosquitoes for up to 30 days in standing water.**

It controls mosquito larvae in stagnant water including container breeding mosquitoes frequently found in residential settings and those which may transmit West Nile, Zika, dengue and chikungunya viruses.

#### **Features ►**

- Insect growth regulator breaks the mosquito life cycle
- Convenient shaker top
- Treats up to 2,400 sq. feet or 9,600 gallons of water
- 10 oz. bottle

#### **Benefits ►**

- Approved to treat and prevent the emergence of mosquitoes that may transmit West Nile virus, Zika virus, dengue fever, chikungunya, and other mosquito-borne diseases
- Easy application
- Ready-to-use
