**MOSQUITO CONTROL  
EVOLVED,  
NOW ELEVATED**

**At Central Life Sciences, we're reimagining what's possible when it comes to being central to insect control. That's why we've brought our pioneering brands together to introduce the Central Synergy Program and deliver significant savings to mosquito abatement professionals.**

**Central UAS Technologies, the visionary of the sky, and Central Life Sciences, the innovator in mosquito control, are combining powers to deliver amplified savings through a cross-promotion.**

**Ready to take to the skies?**

**Flip to the next page to learn how to take advantage of this powerful synergy.**

# HOW TO SAVE

## CENTRAL SYNERGY PROGRAM DETAILS

### OPTION 1

#### EARN FREE PRODUCT

From now until September 30, 2026, buy a PrecisionVision® 100X Full Drone Package through Central UAS Technologies and get your choice of:

- Five (5) free bags of Altosid® P35 granular larvicide
- Six (6) bags of Duplex-G® larvicide
- Eight (8) bags of Altosid XR-G® Ultra mosquito larvicide

### OPTION 2

#### SAVE ON YOUR DRONE PURCHASE

From now until September 30, 2026, buy qualifying volumes of an eligible Central Life Sciences product in a single order and receive up to a 10% discount on a drone purchase\* from Central UAS Technologies. Mix and match choices include:

- Buy 120 bags of Altosid® P35 granular larvicide to get a 5% discount on a drone purchase
- Buy 160 bags of Duplex-G® larvicide to get a 5% discount on a drone purchase
- Buy 200 bags of Altosid XR-G® Ultra mosquito larvicide to get a 5% discount on a drone purchase

## ABOUT UAS TECHNOLOGIES

At Central UAS Technologies, we believe in pushing boundaries and reimagining what's possible. That's why we deliver cutting-edge Unmanned Aircraft System innovations that soar past the ordinary. Because the sky is no longer the limit – it's the beginning.

### About the PrecisionVision® 100X Drone

- PrecisionVision® Autopilot Firmware and Ground Control Station (GCS) combine manual control options with autonomous capabilities
- Granular payload capacity of 70 liters, 100 lbs.
- Liquid payload capacity of 50 liters, 100 lbs., with a max flow rate of 16 liters per min.
- Top-loading with large filling ports and real-time payload sensors
- Camera with articulating gimbal for real-time HD video
- Real-time terrain following radar and obstacle detection technology
- Customizable liquid spray boom supports nozzles from leading manufacturers
- Designed, engineered and assembled at our production facility in Florida using globally and domestically sourced components

PV100X

DROPLET SPECTRUM	N/A	DV 0.5 38-45 MICRONS	80 - 2,500 MICRONS

## MOSQUITO CONTROL EVOLVED BY INNOVATION

Our comprehensive line of mosquito control solutions is driven by our commitment to science and the experience of our team members who have worked extensively in operational mosquito control.

Here's more information about the products included in the Central Synergy Program.

### Altosid® P35 granular larvicide

A granule formulation, Altosid® P35 larvicide provides 35 days of residual control in continuously wet conditions. With extended-release technology, this easy-to-use formulation also offers pre-treatment capabilities 15 days prior to flooding (pre-hatch). The insect growth regulator, (S)-methoprene is immediately activated when wet and released to start controlling adult mosquito emergence.

### Duplex-G® larvicide

Duplex-G® larvicide delivers both quick kill and up to 28 days of residual control with dual-active ingredient performance through a combination of the biorational control agent (S)-methoprene and biological control agent *Bacillus thuringiensis* subspecies *israelensis* (Bti) in a granular formulation.

### Altosid XR-G® Ultra mosquito larvicide

This carbon-free, dust-free (S)-methoprene granule larvicide formulation controls the emergence of adult mosquitoes, including those which may transmit vector-borne diseases, for up to 28 days. With a consistent granule size, Altosid XR-G® Ultra is easy on equipment and provides effective, flexible larval control for all public health professionals.

	ALTOSID® P35	ALTOSID XR-G® ULTRA	ALTOSID XR-G®	ALTOSID SBG® II	FOURSTAR® BTI CRG	DUPLEX-G®
